

# XIII International Workshop on NEUTRINO TELESCOPES Un altro modo di guardare il cielo

## Tribute to Galileo

### *Galileo in Padova (1592-1610)*

*"I diciotto anni migliori di tutta la mia età"*

*Most highly I esteem a trilling truth  
About the merest mote, but do despise  
Unending disputations seeking scotch  
O'er great eternal quests that yield but lies.*

(Trans. Chris Quigg)
