

PROGRAMME

M. Baldo Ceolin

Introduction

R. Davis

The Solar Homestake Chlorine Experiments and the Variation in the Solar Neutrino Flux

A. Suzuki

8 B Solar Neutrino Observation and Possible Tests on Solar Neutrino Problem in Kamiokande-II

S.M. Bilenky

Direct Counting Solar Neutrino Experiments and the Problem of Neutrino Mixing

R. Barbieri

Mesuring the Neutrino Magnetic Moment with Solar Neutrino

T. Kirsten

The Gallex Experiment: Status Report

L. Mosca

Feasibility of an Indium Scintillator Solar Neutrino Experiment

S. Bonetti

Borex: A Solar Neutrino Experiment

J.G. Learned

Future of High Energy Neutrino Astronomy

I.M. Zheleznykh and N.M. Surin

Neutrino Telescopes in USSR

H. Sobel

The First Stage of the GRANDE Facility for the Study of Astrophysical Sources and High-Energy Particle Interactions

G. Pizzella

Correlation between the Maryland and Rome Gravitational Wave Detector Data and the Frejus Muon Detector Data during SN1987A

A. Marzari-Chiesa

Macro at Gran Sasso: Results and Perspectives

G. Navarra

The EAS-TOP Array at Gran Sasso: 1987-1989

G. Navarra

Combined Measurements of Deep Underground Muons and of the Electromagnetic Components of Extensive Air Shower

M. Ambrosio

Status Report on the MINI Experiment

J.W. Elbert

An upward going Muon Background Estimation

M. Genoni

Muons tracking in a large Volume Water Cerenkov Detector

F. v. Feilitzsch

Detectors for Dark Matter and Neutrino Interactions Operated at Low Temperatures

L. Oberauer

Experimental Limits on Neutrino Decay

G. Auriemma

Parallel Calculation of U.H.E. Showers

S.A. Bonometto

Role of Neutrino in the Cosmological Quark-Hadron Transition

F. Buccella

Majorana Masses for Neutrinos in $SO(10)$

M. Roos

The Astrophysics of Radiatively Decaying Left-Right Symmetric Neutrinos

P. Spillantini

The Direct Observation of Cosmic Rays: A New Tool in Astrophysics

C.W. Kim

Neutrino Decays in Dense Medium

J.W.F. Valle

Neutrino Physics beyond the Standard Model

E.W. Kolb

Neutrino Cosmology and Astrophysics

T.K. Gaisser

Prospects for High Energy Neutrino Astronomy

T.K. Kuo and J. Pantaleo

Solar Neutrino Observations and Neutrino Oscillations
